Home Appliances Checklist

Brought to you by

Content.

Home inspections are a crucial part of the process of renovating and furnishing a new home, but not all homeowners focus on all of the appliances. They will check the major systems like the air conditioner, but others, such as the fridge and washing machine, might get no more than a brief glance. Here are the major appliances you should pay attention to as well.

Hood	03
Gas Hob	03
Induction / Ceramic Hob	03
Steam / Microwave Oven	04
Washer / Dryer	04
Fridge / Wine Chiller	05
Dishwasher	05
